

Atlas Copco

**Maximize
efficiency
and reliability**
with a service contract

Service Contracts make sustainable operations more profitable

Simple maintenance solutions for ingenious machines

Atlas Copco electric and battery powered portable air compressors are clean, compact, energy-efficient and quiet, as well as easy to install and operate. The benefits and future potential of these machines are impressive, yet keeping them in perfect shape requires specific

knowledge and certifications. Proven to provide a minimal total cost of ownership and full peace of mind, our Atlas Copco Total Responsibility Plan assures you the best possible service to boost your business' performance.

TOTAL RESPONSIBILITY PLAN

All recommended servicing during your equipment's lifecycle

- All parts and service, perfectly planned and on-time
- Genuine parts and lubricants
- Extended Warranty
- Fleetlink Connectivity
- Servicing by certified technicians, including
 - All maintenance
 - Regular testing
 - Diagnostics
 - Repairs

Connected Services+

By interpreting actionable data and KPIs, Atlas Copco Connected Services+ eliminates the risk of failure, incorrect usage, or safety hazards for your battery or electricity driven compressors.

Get the right service, based on accurate data

B-AIR

- State of charge
- Array fault
- Overall array current
- Minutes to fully charged battery
- Minutes to empty the battery

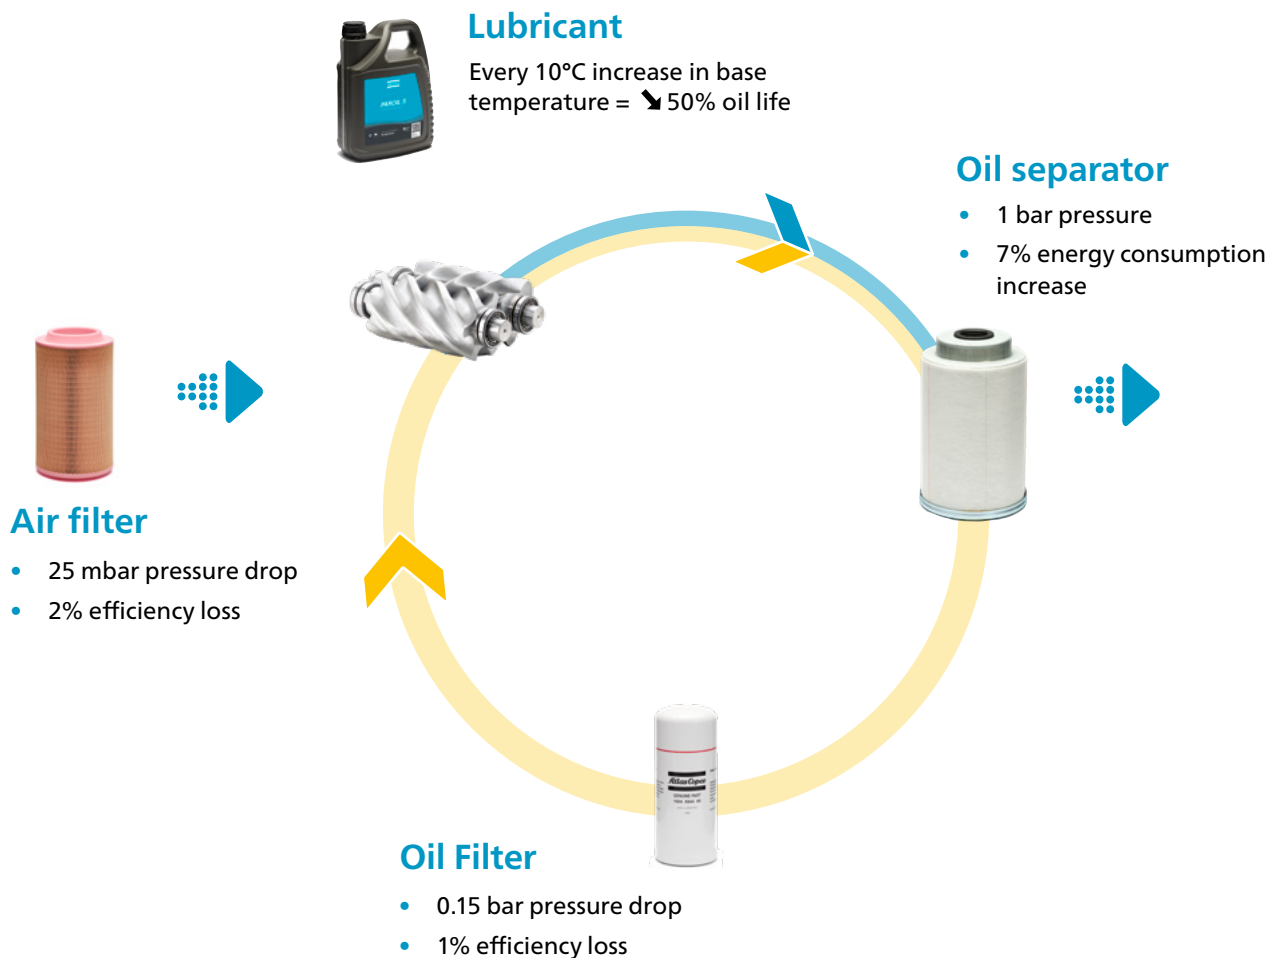

E-AIR

- Current voltage
- Currents

Only genuine Atlas Copco service will avoid pressure drops and efficiency loss

Impurities in the inlet air, high oil content in the air that leaves the compressor or a lack of oil to seal the clearances and absorb contaminants can cause efficiency decrease or even failure of your machine.

Original Atlas Copco parts and maintenance by expert technicians will prevent unwanted pressure drops and temperature raises, resulting in lower energy consumption and higher efficiency.
